17. Dispute Resolution & Arbitration

Binding Arbitration. Except for any disputes, claims, suits, actions, causes of action, demands or proceedings (collectively, (“**Disputes**”) in which either Party seeks injunctive or other equitable relief for the alleged unlawful use of intellectual property, including, without limitation, copyrights, trademarks, trade names, logos, trade secrets or patents, you and us (i) waive your and our respective rights to have any and all Disputes arising from or related to these Terms resolved in a court, and (ii) waive your and our respective rights to a jury trial. Instead, you and we will arbitrate Disputes through binding arbitration (which is the referral of a Dispute to one or more persons charged with reviewing the Dispute and making a final and binding determination to resolve it instead of having the Dispute decided by a judge or jury in court).

No Class Arbitrations, Class Actions or Representative Actions. Any Dispute arising out of or related to these Terms is personal to you and us and will be resolved solely through individual arbitration and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which an individual attempts to resolve a Dispute as a representative of another individual or group of individuals. Further, a Dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.

Notice; Informal Dispute Resolution. Each Party will notify the other Party in writing of any Dispute within thirty (30) days of the date it arises, so that the Parties can attempt in good faith to resolve the Dispute informally. Notice to us shall be sent by email at team@weevo.city . Notice to you shall be by email to the then-current email address in your Account. Your notice must include (i) your name, postal address, email address and telephone number, (ii) a description in reasonable detail of the nature or basis of the Dispute, and (iii) the specific relief that you are seeking. If you and us cannot agree how to resolve the Dispute within thirty (30) days after the date notice is received by the applicable Party, then either you or us may, as appropriate and in accordance with this Section, commence an arbitration proceeding or, to the extent specifically provided for in this Section, file a claim in court.

Arbitration Rules. Any Dispute in connection with these Terms, or the breach, termination or invalidity thereof, shall be finally settled by arbitration administered by the Arbitration Malta

Financial Services Authority (MFSA). The Rules for Expedited Arbitrations shall apply where the amount in dispute does not exceed US\$100,000. Where the amount in dispute exceeds US\$100,000 the Arbitration Rules shall apply. The Arbitral Tribunal shall be composed of a sole arbitrator where the amount in dispute exceeds US\$100,000 but not US\$1,000,000. Where the amount in dispute exceeds US\$1,000,000, the Arbitral Tribunal shall be composed of three arbitrators. The amount in dispute includes the claims made in the Request for Arbitration and any counterclaims made in the Answer to the Request for Arbitration. The seat of arbitration shall be in Malta. The language to be used in the arbitral proceedings shall be English. The arbitrator will have (i) the exclusive authority and jurisdiction to make all procedural and substantive decisions regarding a Dispute, including the determination of whether a Dispute is arbitrable, and (ii) the authority to grant any remedy that would otherwise be available in court; provided, however, that the arbitrator does not have the authority to conduct a class arbitration or a representative action, which is prohibited by these Terms. The arbitrator may only conduct an individual arbitration and may not consolidate more than one individual's claims, preside over any type of class or representative proceeding or preside over any proceeding involving more than one individual.

Severability of Dispute Resolution; Arbitration. If any term, clause or provision of this Section is held invalid or unenforceable, it will be so held to the minimum extent required by law, and all other terms, clauses and provisions of this Section will remain valid and enforceable. Further, the waivers set forth in this Section are severable from the other provisions of these Terms and will remain valid and enforceable, except as prohibited by applicable law.

18. Governing Law

These Terms will be governed by and construed and enforced in accordance with the laws of Malta, without regard to conflict of law rules that would cause the application of the laws of any other jurisdiction.

19. Miscellaneous

Severability

If any term, clause or provision of these Terms is held unlawful, void or unenforceable, then that term, clause or provision will be severable from these Terms and will not affect the validity or enforceability of any remaining part of that term, clause or provision, or any other term, clause or provision of these Terms.

The Entire Agreement

These Terms constitute the entire agreement between you and us relating to your Contribution and participation in WEE token sale.

Modifications and Amendments

We may make changes to these Terms from time to time as reasonably required to comply with applicable law or regulation. If we make changes, we will post the amended Terms on the Website and update the “Last Updated” date above. The amended Terms will be effective immediately. . It is your responsibility to regularly check the Website for any notices and updated Terms.

Assignment

We may assign our rights and obligations under these Terms. You may not assign, sublicense or otherwise transfer in any manner any of your rights or obligations under these Terms.

No Waiver

Our failure to exercise or enforce any right or provision of these Terms will not operate as a waiver of such right or provision.

Force Majeure

We will not be liable for any delay or failure to perform any obligation under these Terms where the delay or failure results from any cause beyond our reasonable control.

Independent Parties

Making a Contribution and participation in the token sale do not create any form of partnership, joint venture or any other similar relationship between you and us.

No Third-Party Beneficiaries

Except as otherwise provided in herein, these Terms are intended solely for the benefit of you and us and are not intended to confer third-party beneficiary rights upon any other person or entity.

Consent to Electronic Communication

You agree and acknowledge that all agreements, notices, disclosures, and other communications that we provide to you, including these Terms, will be provided in electronic form.

Exhibit A – Certain Risks Relating to Acquisition, Use, Holding, Sale or Transfer of WEE

As noted elsewhere in these Terms, the WEE are not being structured or sold as securities or any other form of investment product. Accordingly, none of the information presented in this Exhibit A is intended to form the basis for any investment decision, and no specific recommendations are intended. We expressly disclaim any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) reliance on any information contained in this Exhibit A, (ii) any error, omission or inaccuracy in any such information or (iii) any action resulting from such information.

By making a Contribution, participating in the WEE token sale, holding and using WEE, you expressly acknowledge and assume the following risks.

Risk of Losing Access to WEE Due to Loss of Private Key(s)

Custodial Error or Purchaser Error. A private key, or a combination of private keys, is necessary to control and dispose of WEE stored in your digital wallet or vault. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing WEE will result in loss of such WEE. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a digital wallet or vault service you use, may be able to

misappropriate your WEE. Any errors or malfunctions caused by or otherwise related to the digital wallet or vault you choose to receive and store WEE, including your own failure to properly maintain or use such digital wallet or vault, may also result in the loss of your WEE.

Risks Associated with the Ethereum Protocol

Because WEE, smart contracts, and the System are based on the Ethereum protocol, any malfunction, breakdown or abandonment of the Ethereum protocol may have a material adverse effect on WEE, smart contracts, the System and/or Services. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to WEE, the System and/or Services, including the utility of WEE for obtaining the Services, by rendering ineffective the cryptographic consensus mechanism that underpins the Ethereum protocol.

Risk of Hacking and Security Weaknesses

Hackers or other malicious groups or organizations may attempt to interfere with WEE, the System and/or Services in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing.

Risk of Uninsured Losses

Unlike bank accounts or accounts at some other financial institutions, WEE are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer or private insurance arranged by us, to offer recourse to you.

Risks Associated with Uncertain Regulations and Enforcement Actions

The regulatory status of WEE and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including WEE, the System and/or Services. Regulatory actions could negatively impact WEE, the System and/or Services in various ways, including, for purposes of illustration only, through a determination

that WEE are a regulated financial instrument or security that require registration and/or licensing. We may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

Risks Arising from Taxation

Purchasing WEE may result in adverse tax consequences to you, including the imposition of withholding taxes, income taxes and tax reporting requirements. You should seek tax advice from your own tax counsel in connection with making a Contribution, holding, acquiring, selling or transferring WEE.

Risk of Alternative Platforms

It is possible that alternative platforms could be established that utilize the same technology and protocol underlying the System and attempt to facilitate services that are materially similar to the Services. The System may compete with these alternative platforms, which could negatively impact the System, Services and WEE, including WEE's utility for obtaining the Services.

Risk of Insufficient Interest in the System or Distributed Applications

It is possible that the System will not be used by a large number of individuals, companies and other entities or that there will be limited public interest in the creation and development of platforms such as WEE more generally. Such a lack of use or interest could negatively impact the development of the System and the potential utility of WEE, including its utility for obtaining the Services.

Risks Arising from the Market in Which the System Operates

The surveillance market and, accordingly, WEE, the System and Services, are subject to a variety of federal, state and international laws and regulations, including those with respect to personal identifiable information, data protection, privacy and security, competition, consumer protection, data security, and others. These laws and regulations, and the interpretation or application of these laws and regulations, could change and vary from country to country. In addition, new laws or regulations affecting WEE, the System and Services could be enacted, which could impact the utility of WEE, including WEE's utility for obtaining the Services.

Additionally, the System and Services and their users and customers are subject to or may be adversely affected by industry specific laws and regulations or licensing requirements. If any of these parties fails to comply with any of these licensing requirements or other applicable laws or regulations, or if such laws and regulations or licensing requirements become more stringent or are otherwise expanded, it could adversely impact WEE, the System and Services, including WEE's utility for obtaining the Services.

Risks Associated with the Development and Maintenance of the System

The System is still under development and may undergo significant changes over time. Although we intend for WEE and the System to follow the specifications set forth in the Project Documentation, and will take commercially reasonable steps toward those ends, we may have to make changes to the specifications of WEE or the System for any number of legitimate reasons. This could create the risk that WEE or the System, as further developed and maintained, may not meet your expectations at the time of purchasing WEE. Furthermore, despite our good faith efforts to develop and maintain the System, it is still possible that the System will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the System and the potential utility of WEE, including its utility for obtaining the Services.

Risk of Hard-Fork

The System will need to go through substantial development works as part of which it may become the subject of significant conceptual, technical and commercial changes before release. As part of the development, an upgrade to WEE may be required (hard-fork of WEE) and that, if you decide not to participate in such upgrade, you may no longer be able to use your WEE and any non-upgraded WEE may lose its functionality in full.

Risk of Unfavorable Fluctuation of Currency Value

We intend to use the Contributions to fund the development of WEE, the System, the Services and various other operating expenses. The Contributions received will be denominated in ETH or other cryptographic currencies, and may be converted into other cryptographic and fiat currencies. If the value of ETH or other currencies fluctuates unfavorably during or after the

contribution period, we may not be able to fund the development of, or may not be able to maintain, the System and/or the Services in the intended manner.

Risk of Dissolution of the Company

It is possible that, due to any number of reasons, including, but not limited to, the failure of commercial relationships, or intellectual property ownership challenges, we may no longer be viable to operate and the Company may dissolve.

Risks Arising from Lack of Governance Rights

Because WEE confer no governance rights of any kind with respect to the System or the Company, all decisions involving the System or the Company will be made by us at our sole discretion, including, but not limited to, decisions to discontinue the System, to issue more WEE for use in the System, or to sell or liquidate the Company. These decisions could adversely affect the System and the utility of WEE that you hold, including WEE's utility for obtaining the Services.

Unanticipated Risks

Cryptographic tokens such as WEE are a new and untested technology. In addition to the risks included in this Exhibit A, there are other risks associated with your Contribution, participation in the WEE token sale, acquisition, holding and use of WEE, including those that we cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the risks discussed in this Exhibit A.
